

Senior Scientist Antibody Generation (f/m/d)

Pet ownership constantly increases and nowadays people are considering their cat or dog as a family member. As pets live longer, they develop similar geriatric and civilization diseases as humans but there is a gap in the availability of innovative and specific treatments for serious diseases or chronic conditions in companion animals.

Our mission is to develop novel, species-specific therapeutic antibodies from our proprietary, and state of the art antibody platforms. The whole team is very passionate identifying unmet medical needs and supporting veterinary health professionals as well as pet owners in treating dogs & cats with novel highly efficient drugs.

Do you want to make a difference in veterinary medicine? To strengthen our team, we are looking for a highly motivated senior scientist with a passion for pets.

You are responsible for ...

- The selection of antibodies as therapeutic candidates using our pet-specific phage display libraries
- The establishment of suitable high-throughput antibody screening methods
- Supervision of a small team to efficiently meet timelines and milestones for antibody discovery programs
- Extensive literature research and both writing of scientific texts and generation of scientific presentations
- Independent planning, coordination and quality control of lab work
- Communication and scientific exchange with the team, other companies, and external collaboration partners
- Presentation of results in internal project team meetings and in front of external partners

You have ...

- A PhD in the field of life sciences and optimally > 5 years of work experience in a relevant field
- A deep understanding of antibody generation, and phage or yeast surface display
- An in-depth expertise and experience in molecular biology, immunology, biochemistry and cell biology
- Strong organization, documentation, and technical writing skills
- Excellent communication skills, both in English and German

We offer

- Great working atmosphere in a growing and highly motivated team
- A diverse range of interesting and multifaceted tasks and challenges
- Company pension scheme & accident insurance
- JobRad bike leasing
- Office dogs for stress reduction

We are looking forward to receiving your application *via* Email career@adivo.vet (pdf format only!).
